About The GREEN Program

Our Mission

Since 2009, The GREEN Program's mission is to educate and empower future sustainability leaders through experiential education, responsible travel, adventure, and workforce readiness.

Our Vision

We envision a sustainable future driven by global citizens who catalyze change and propel communities and organizations towards progressive sustainability goals and climate resilience.

The GREEN Program (TGP) is an award-winning, experiential education program focused on our world's most pressing issues in sustainable development.

www.thegreenprogram.com

Advancing the Sustainable Development Goals

Equipping and empowering the next generation of sustainability leaders through short-term experiential education

- 8-10 Days
- Accredited
- Career-focused
- Interdisciplinary

"UNPARALLELED EXPERIENCE - TGP IS ANYTHING BUT A TOURISTY, SIGHT-SEEING TOUR."

THE GLOBAL GOALS

Why TGP?

Short-term, immersive, skills-based, solutions-focused, career-driven learning

Dive into a unique educational adventure that combines sustainability, innovation, and career development in 8-10 days.

- Learn directly from sustainability experts and industry leaders
- Gain exclusive access to renewable energy and sustainability facilities
- Gain real-world experience in sustainable practices
- Develop practical skills to accelerate your career
- Take part in outdoor education excursions: glacier hikes, camping, and more
- Earn professional certification and receive career-focused benefits
- Become part of a global network of like-minded changemakers

..and more!

TGP'S CAPSTONE PROJECT

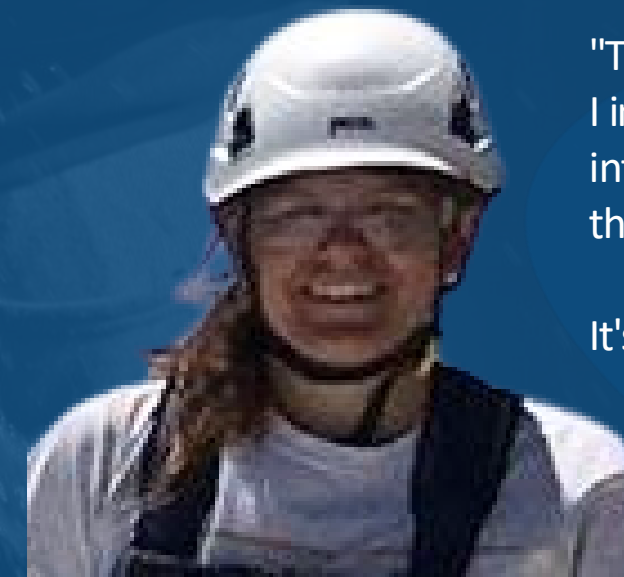

The Capstone Project challenges students to develop an entrepreneurial solution to a real-world challenge in sustainable development.

- Interdisciplinary teamwork
- Active Learning: Knowledge application to the SDGs
- Creative problem-solving, critical-thinking, entrepreneurship, analysis
- Interpersonal communication, decision-making
- Public speaking, and leadership skills

Sustainability Innovation Projects:
Where passion meets progress for
sustainable development.

"ONE OF THE BEST DECISIONS OF
MY LIFE."

"The GREEN Program stuck out on my resume. When I interviewed with General Electric, they were very interested in my Capstone Project that we created on the program.

It's what pushed my resume through."

- Amanda B.
Lead Validation Engineer, GE Wind

95% of TGP students experience an increase in awareness, and expertise in sustainability issues.

- Study by Uppsala University (2020)

Where TGP Alumni are making a change

"TGP IS SUCH GOOD INTERVIEW MATERIAL BECAUSE IT'S AN INCREDIBLE EXPERIENCE, AND THE RECRUITERS WANT TO HEAR ABOUT THEM. "
